

HEALTH AND SAFETY POLICY

The management of OPD PROJECT MANAGERS considers the prevention of injury, occupational injuries, and diseases and damages an essential requirement and an integral part of every activity; therefore it becomes the responsibility of every employee, irrespective of his/her position.

Therefore the Health and Safety Objectives of our Company are:

- 1. To maintain complete compliance with all relevant statutory requirements where the legal obligations represent the minimum level of achievement in respect of health and safety at work and the environment.*
- 2. To achieve a healthy and safe working environment for employees. The health and safety of employees will, as far as is reasonable practical, take precedence over all other aspects of the Company business.*
- 3. To formulate regulations with a view to providing and maintaining a healthy and safe working environment.*
- 4. To rectify and control any deviations from the recognised practices.*
- 5. To provide effective personal protective equipment, adequate first aid facilities and safety and fire equipment at all times*
